**1095<sup>th</sup> meeting. July 25, 2007 Coinage of the English Civil War** *Elliot Wehner* (reviewed by *Herb Miles*)

Elliot's talk was on Charles I, a Stuart who reigned from 1625 to 1649. Charles' reign was characterized by his efforts to impose the "divine right of kings" upon England and the Parliament.

During his time on the throne, England suffered through his various wartime adventures, his calling Parliament to order to raise funds for an army and then disbanding Parliament because his authority to raise money was circumscribed again and again. To get funds in order to raise armies, he exercised his right to tax under the "Tonnage and Poundage" act in 1628, but Parliament limited his authority to 1 year whereas in other eras, this right had been granted for life. Charles also charged inland towns a "ship money tax," something usually done only in time of war and only for coastal towns.

There are several distinct coinage issues of Charles I, the pre-war pieces, such as the Unite or 20 Shillings and half-Unite or 10 Shillings, the half-groat and penny pieces. Legends on the coins range from "Charles, By the Grace of God, King of Britain, France, & Ireland" to "I Reign under the Auspices of Christ" to "Justice Strengthens the Throne." Even Parliament struck coins during this tumultuous era after seizing the Tower Mint in 1642 during one of Charles' many battles against them.

Charles kept England was under constant war, either a Civil War against English nobles or the Parliament, or against the Scots, or adventures in Europe where he tried to war with Spain. Consequently, there is a Civil War coinage of 1642-1649, and siege pieces issued in 1644. Finally, defeated by the Scots in about 1646, he was given over to Parliament, a trial was held despite the reluctance of Parliament to defy the so-called "divine right of kings" and Charles I was executed in 1649 ushering in the Cromwell era. In 1660, 11 years after the death of Charles I, Charles II, son of the executed king was "restored"

to the throne by Parliament, "The Restoration," and kings and queens have ruled without interruption to the present day.

A very nice talk; now Elliot is off to college, Johns Hopkins University in Baltimore, Maryland and we wish him well!
