

## PCNS 100th Anniversary Medal

The Pacific Coast Numismatic Society has announced design and ordering information for their 100th Anniversary Medal. This medal will be engraved and struck by Daniel Carr of the Moonlight Mint in Colorado, and distributed this Fall to subscribers who pre-order by June. The design for this historic medal revisits the PPIE commemorative designs and continues the Society's traditional octagonal logo with a new high-relief die. (Images shown for design info are not actual photos.) Mintage will be limited to prepaid orders received by the Society by June 2015. The octagonal 41mm medal will be struck in silver, with coppers available only as part of the 2-medal set (1 copper + 1 one-ounce silver).

Orders with payment, \$100 per set or \$75 silver only, plus \$6 postage, must reach the Society by June at: PCNS, Box 475656, San Francisco, CA 94147. **Orders now accepted via PayPal. See instructions at <http://pcns.org/orders/index.html>.**

PCNS was founded in 1915, by Farran Zerbe and a group of San Francisco collectors, during the Panama Pacific International Exposition. It was the first numismatic organization established in the western United States. PCNS hosted the American Numismatic Association's 1915 Convention in San Francisco, in conjunction with PPIE events.

Federico Castillo delivered his talk, **Minor Cooper Keith, How to build a fortune through Railroads, Bananas, and Coffee.**

Minor Keith was the nephew of Henry Meiggs, businessman from San Francisco who escaped to South America from the city a little before he was to be thrown in jail for swindling.

Meiggs began building railroads in South America and recouped his fortune by these endeavors. He was contracted to build a railroad in Costa Rica from San Jose in the center of the country to the Atlantic coast; after our very own John C Fremont defaulted on a contract to do the building. A railroad would greatly reduce the time and transportation costs of exporting Costa Rican coffee to Europe by eliminating the need for ships to sail around the bottom tip of South America.

Meiggs then enlisted his nephew to finish building the railroad, but needless to say, financial setbacks, disease, and misfortune dogged the project from start to finish. Keith through refinancing and determination finally completed the task and was rewarded by the Costa Rican government with leases on land along either side of the railroad line. He began growing bananas and other crops on this land making a lucrative business of exporting the yellow fruit, basically securing a monopoly on the South American banana export business.

After his own financial troubles Keith combined with the West Indies banana monopoly, the Boston Fruit Company, forming the United Fruit Company which then controlled the entire banana export industry.

Keith invested in other industries in Central and South America and became a very wealthy man, eventually returning to his birthplace in New York where he died in the early 1920's.
