Board Meeting:

President Stephen Huston called the meeting to order at 7:00 pm.

Board members present included: Stephen Huston, Dan Hipple, Herb Miles, Michael Whalen, and Bill Hyder. Other members present included Mark William Clark and David Somers.

The treasurer's report noted a discrepancy \$80.64 between the closing report by the outgoing treasurer and the balances at the time the accounts were transferred. The outgoing treasurer noted a discrepancy of \$77.22 at the time of the transfer. President Huston appointed Herb Miles to chair an Audit Committee to review the books. The incoming Treasurer is opting to start with the balance present at the time of the transfer and report the total balance of the organization's funds as the sum of the checking account and the savings account each month to try to avoid errors creeping in as funds are transferred to maintain reasonable balances in the checking account. On January 1, 2012, the organization had a total balance of \$11,748.88 in the combined checking and savings accounts.

The treasurer's report showed \$85 in dues and a \$50 donation received at the 12/28/11 meeting. Those funds were deposited on January 3, 2012, leaving a balance of \$11,883.88 on January 25, 2012. The board approved payments of \$75.75 to Bill Hyder for mailing envelopes and postage and \$10 to NCNA for \$10 annual dues.

In addition to an Audit Committee, President Huston appointed Dan Hipple to head a Publications Committee to try to restart our annual publication.

Speaking commitments on record include Lloyd Chan for July, Michael Turrini for February, Dan Hipple for March, and Stephen Huston for a future meeting.

Meeting adjourned at 7:20 pm.

General Meeting:

Stephen Huston called the meeting to order at 7:40.

Members present included: Michael Whalen, Stephen Huston, Bill Hyder, Mark William Clark, Herb Miles, David Somers, Dan Hipple, Michael Wehner, Federico Castillo, and Lew Robinson. Guests included: Joanie Levisohn.

Bill Hyder presented a talk: The PPIE Official Medal prepared by Jeff Shevlin and himself based on a draft article prepared for the Numismatist. The official medal is

cataloged as being struck in silver, gilt bronze, and bronze. Silver and gold-plated bronze medals were struck at the Philadelphia mint since they involved the use of precious metals. Bronze medals were struck at the mint exhibit in San Francisco and were finished with one of four patinas: Bright Bronze, Statuary Bronze, Oxidized Bronze, and Antiqued Bronze. Shevlin and Hyder have compiled a color chart to allow the identification of the different finishes for uncirculated medals. As the medals wear, correct identification of the patina becomes difficult if not impossible in most instances. They also document silver-plated medals that they speculate were produced for Farran Zerbe in order to make an additional profit and cast white metal examples that were likely made out side the exposition grounds by others hoping to profit from the exposition souvenir market. In all, only 40,000 plus bronze medals and about 2,500 silver medals were sold despite a record attendance of approximately 18,000,000 people.
